

TAX CREDIT SERVICE

This sheet is for historic reference only; we ceased offering a Tax Credit support service from April 2007.

Garbetts offer a service to clients to assist with tax credit claims (Working and Childcare).

For information on what may be available and how the system works see,
www.garbetts.com/download/taxcredits.pdf

There are three services available:

Tax Credit Support Service - £120 p a+ vat

This is a Comprehensive support service, covering a complete tax year, dealing with making the claim for that year, finalising it when final information available and dealing with any queries or administration arising (other than in depth tax enquiries into business accounts).

Tax Credit Administration - £hourly rate

If you don't subscribe to our comprehensive Tax Credit support service, above, but require assistance with tax credit claims or administration, then we provide this on an hourly basis. The hourly rates depend on the complexity of the work and the time taken, and range between £80 per hours (tax manager) to £40 per hour (tax technician), all plus VAT. We invoice these costs on a quarterly basis.

Tax Credit Figures- £free

If you just want to know the figures to go on to your tax credit claim form, and will undertake everything else yourself, then once your accounts and tax return are complete, we will provide a summary of the figures you need for free.
